Quality products in half the time

# FrameFast

Frame Fast (UK) Ltd is the region's largest trade fabricator of PVC-U doors and windows. Our 30,000 sq ft, purpose-designed production facility on Ascot Drive in Derby is one of the most technically advanced in the industry, thanks to our commitment to continued investment.

Our automatic frame production system includes a high output, software driven auto-cutting and prepping centre, which has continued to improve accuracy and increase production capacity.

Our quality control department, which is one of the most sophisticated in the industry, is equipped with an enhanced testing laboratory. This measures the quality, strength and accuracy of every weld and the overall aesthetic finish of each frame and roof. And that's why we have been awarded the British Standard Kitemark BS7412 and BS7950

Because we are committed to providing the highest standards of customer care to all our customers, regardless of whether they purchase one or a thousand frames, our trade counter staff are all qualified and have all gained an NVQ in customer service. They use the latest computer technology to generate on-the-spot quotations and a range of detailed CAD drawings.

As a result of our excellence and attention to the highest standards of detail, our customer base continues to expand and ranges from the small independent window installer and builders to large construction companies, Local Authorities and Housing Associations.

The latest frames, conservatory roofs and accessories can be found on display in our showroom.

## Bring the outside in with our New Bi-Fold doors

Our superb collection of panoramic doors offer market-leading aesthetics, engineering and value. With a choice of designs and guaranteed high-quality performance, they bring you the space, comfort and low maintenance luxury of modern living.

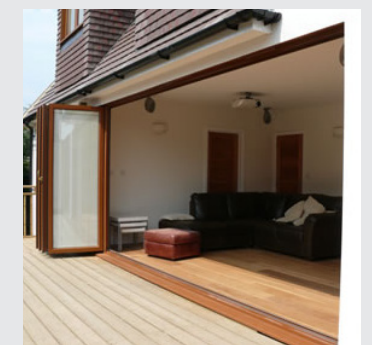

### Easier, smoother operation

Frame Fast panoramic doors have been designed with slimmer, uncluttered sightlines to make them less obtrusive. This means you see less of the door and more of the outside.

A real wow factor with these fantastic features:-

- **No dummy mullion needed, for better aesthetics and operation**
- **Unique D shape handles**
- **Bespoke British designed hardware**
- **Top rollers feature integral anti jemming pins**
- **Finger operated shoot bolts**
- **PAS 23/24 Security rating**
- **Wide range of profile colours**

In short, our new folding sliding doors are superior to any other similar PVC-U products you'll find on the market today.

“These versatile contemporary Bi-Folding doors are easy to operate and create a real wow factor”

# Vertical Slides

Frame Fast's PVC-U vertical sliders provide the perfect solution to those who wish to replace old timber sash and poor imitations from the 1970's and 80's. They offer all of the benefits of a modern PVC-U window, with all the charm and character of authentic sash windows. As you would expect from Frame Fast the attention to detail is outstanding, with traditional features painstakingly re-created.

## Quality as standard

- Performance, strength, quality & durability
- Energy efficient 24mm double glazing
- Factory tensioned balances
- Tilt restrictors
- Fully reinforced

# Casement Windows

The Frame Fast window range offers flexibility and versatility so homeowners can get exactly the right windows and doors to suit the age and style of their property.

Our range include Bevelled and Ovolo, both offering enhanced security details as standard.

## Security as Standard

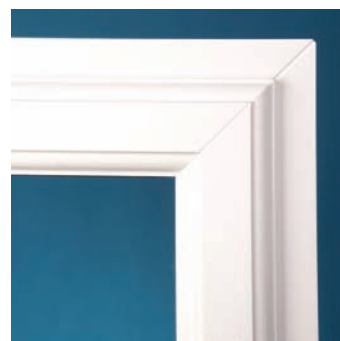

All of our casement windows have a revolutionary new window locking system that combines strength and durability with exceptional security and performance.

Our Bi-directional lock has been engineered to improve security and features sets of opposing double bolts which act as anti-lift to give a smoother operation.

Registered member of

Bevelled

Ovolo

# Mock Sash

With their sculptured outer edges, our PVC-U moulded sash horn windows offer an alternative to the traditional chamfered design.

Our decorative sash horns are an integrated item, unlike many other manufacturers who still 'bolt on' the horn. They are suitable for a variety of uses including refurbishment and renovation work.

## Attention to detail

- Easy installation for new build refurbishment or renovation
- Energy efficient 28mm double glazing

“The staff are always helpful and the factory is conveniently located”

# Doors

Your entrance door is the gateway to your home. It reflects your tastes and creates that all important first impression. It's important that your entrance door complements the style of your property, but it also needs to be functional and secure.

Frame Fast entrance doors, constructed from the same robust PVC-U components as our windows, are the perfect solution, combining aesthetic appeal with practicality, security against intruders and low maintenance.

## French Doors

Frame Fast French doors are ideal for a wide range of uses, particularly where a traditional feel is required. Beautifully suited to open up conservatories or to make a unique design statement within your home, our doors have a classic appearance with all the benefits of contemporary PVC-U double glazing.

## Sliding Patio Doors

Practical with a stunning appearance. Frame Fast patio doors will maximise your view of the outside to bring more natural light into your home.

These versatile and beautiful doors are offered in both classical and contemporary styles and are available in a range of colours. With Frame Fast's attention to ensuring the highest standards and quality and with its six hook locking system, this door offers excellent security. You can be assured they will operate smoothly for many years to come.

## Coloured Doors

The design of your Frame Fast door isn't complete until you've selected the colour to complement the style.

## 3 great reasons to choose Frame Fast

- Large range of products
- Full technical back up
- Excellent value for money

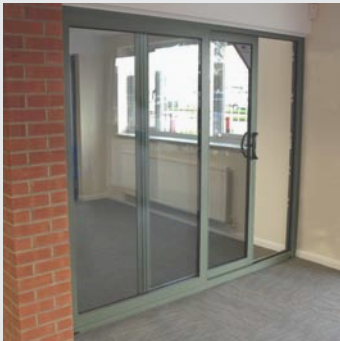

Enhance your home with a bit of colour

Please visit our showroom to see the latest range of:

- Sliding Patio Doors
- Bi-Folding doors
- Casement Windows
- Parallel Windows

# Aluminium

The Frame Fast range of products provide a solution for a variety of aluminium needs for both the commercial and residential markets.

## Aluminium Bi-Folding doors

Frame Fast provide a solution for the domestic, medium and heavy duty commercial application. These are available in a variety of styles, together with a selection of hardware options, allowing the doors to be fully customised in terms of security, weather and functionality.

## Curtain Walling

Our products are specifically designed to meet the requirements of contemporary architecture, whether you require low or high rise, Frame Fast has the solution.

## Casement Windows

Contemporary and high performance aluminium is one of the most hard-wearing building materials around. Being practically maintenance-free, highly durable with outstanding insulating properties.

## Highest quality

Today's market place demands products that are designed to meet stringent building regulations for security, weather, thermal and structural performance.

To ensure we meet these demands, our products have been tested and certified to the latest standards including:

- Kitemark to BS7950
- Kitemark to BS4873

## The Auto-Safe Door

Opens, closes and locks at the touch of a button. Simple safe and secure. Fulfills the requirements of Part M of building regulations by enabling a more inclusive approach to design. A great breakthrough in disability access.

Please call the trade counter for more information.

# Conservatories

Our luxurious conservatories provide a place to retreat and relax. A place that brings light and air into your home. From elaborate to the contemporary, our conservatories are designed with the market leading benefits that deliver highest quality workmanship and exceptional value for money.

Plus, our coveted reputation for quality and reliability gives you confidence that you are choosing the very best.

## Select your style

A wide range of styles, colours and finishing touches are available, including:

- Edwardian
- Victorian
- Gable ended
- Lean-to
- P-shaped
- Specials

An extensive range of styles enables the right character of conservatory to be chosen to suit your home.

# Orangeries

If you require something more substantial than a fully glazed conservatory then you should look no further than an orangery from Frame Fast.

Our bespoke PVC-U orangeries provide an additional room which perfectly combines a traditional feel with the convenience of contemporary technology.

# Roofs

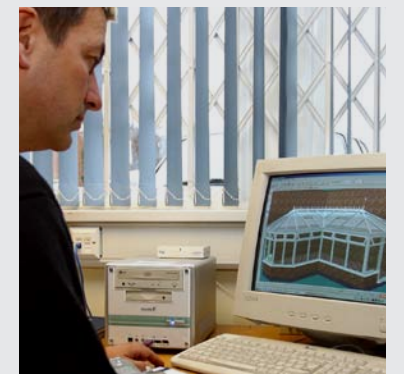

Frame Fast supply a roof system considered to be one of the best available on the market today, as well as being very versatile with endless design possibilities available.

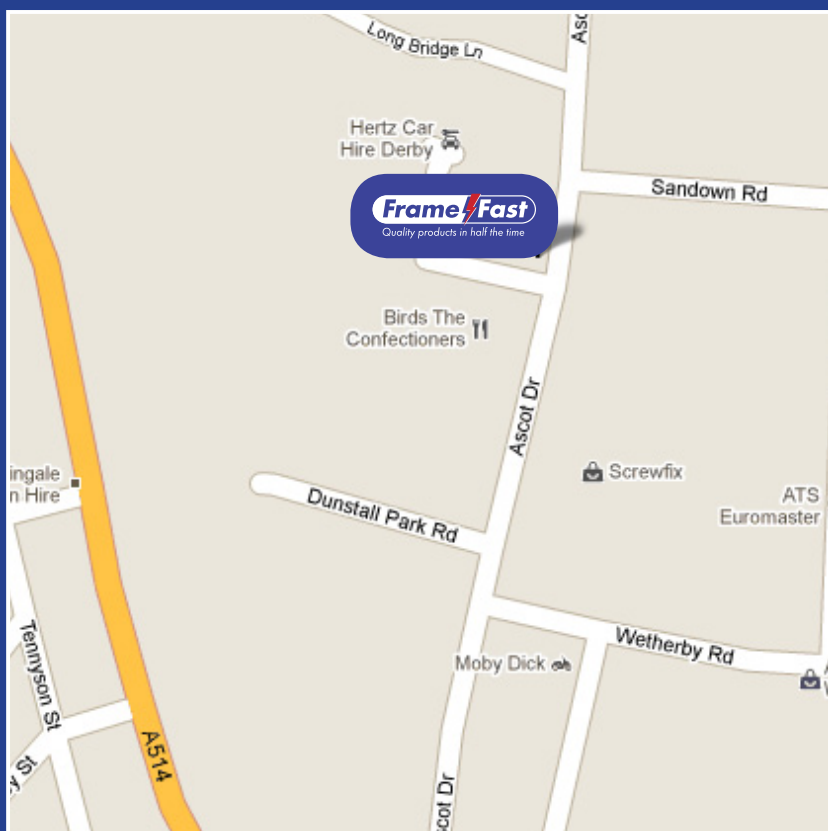

Whether it's a new build or replacement, simple or complex in design, we supply the expert and professional service required to complete your roof to the highest possible standard.

## All part of the service

- State of the art 3D drawings
- Experienced staff to help out with any technical issues
- On site help available when measuring conservatory bases

Frame Fast are committed to manufacturing and supplying energy efficient Aluminium and PVC-U products and are approved by the BRFC - The British Fenestration Ratings Council.

**BFRC Energy Rating A Cert.2929**

**BFRC Energy Rating C Cert.2930/2931**
